A BILL

To address the public health risks posed by wildlife markets,
and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Preventing Future
5 Pandemics Act of 2020”.

6 **SEC. 2. WILDLIFE MARKET DEFINED.**

7 In this Act, the term “wildlife market”—

8 (1) means a commercial market that—

1 (A) sells or slaughters terrestrial, including
2 avian, wildlife for human consumption as food
3 or medicine, whether the animals originated in
4 the wild or in a captive environment; and

5 (B) delivers a product in communities
6 where alternative nutritional or protein sources
7 are available; and

8 (2) does not include markets in areas where no
9 other practical alternative sources of protein or meat
10 exists, such as wildlife markets in rural areas on
11 which indigenous people rely to feed themselves and
12 their families.

13 **SEC. 3. STUDY ON RISK OF WILDLIFE MARKETS ON THE**
14 **EMERGENCE OF NOVEL VIRAL PATHOGENS.**

15 Not later than 30 days after the date of the enact-
16 ment of this Act, the Secretary of Health and Human
17 Services shall seek to enter into an agreement with the
18 National Academies of Sciences, Engineering, and Medi-
19 cine under which the National Academies of Sciences, En-
20 gineering, and Medicine agrees to—

21 (1) conduct a study to evaluate—

22 (A) the impact of physical proximity and
23 consumption of terrestrial wildlife as food or
24 medicine on the emergence of viral and other
25 microbial pathogens;

1 (B) the impact of consumption of terres-
2 trial wildlife as food or medicine on the trans-
3 mission of novel viral and other microbial
4 pathogens;

5 (C) the role consumption of terrestrial
6 wildlife as food or medicine has on the trans-
7 mission of microbes from animals to humans;
8 and

9 (D) the conditions at live wildlife markets
10 that lead to transmission of zoonotic diseases;
11 and

12 (2) not later than one year after the date of
13 such agreement, submit a report to the Committee
14 on Health, Education, Labor, and Pensions of the
15 Senate and the Committee on Energy and Com-
16 merce of the House of Representatives on the find-
17 ings of the study described in paragraph (1).

18 **SEC. 4. INTERNATIONAL COOPERATION.**

19 (a) SENSE OF CONGRESS.—It is the sense of Con-
20 gress that global institutions, including the Food and Ag-
21 riculture Organization of the United Nations (FAO), the
22 World Organisation for Animal Health (OIE), and the
23 World Health Organization (WHO), together with leading
24 nongovernmental organizations, veterinary colleges, and
25 the United States Agency for International Development

1 (USAID), should promote the paradigm of One Health—
2 the integration of human health, animal health, agri-
3 culture, ecosystems, and the environment as an effective
4 and integrated way to address the complexity of emerging
5 disease threats.

6 (b) STATEMENT OF POLICY.—It is the policy of the
7 United States to facilitate international cooperation by
8 working with international partners and through intergov-
9 ernmental, international, and nongovernmental organiza-
10 tions such as the United Nations to—

11 (1) lead a resolution at the United Nations Se-
12 curity Council or General Assembly and World
13 Health Assembly outlining the danger to human and
14 animal health from emerging zoonotic infectious dis-
15 eases, with recommendations for implementing the
16 worldwide closure of wildlife markets and the ending
17 of the associated commercial trade of terrestrial
18 wildlife that feed and supply those markets, except
19 for in such countries or regions where the consump-
20 tion of wildlife is necessary for local food security or
21 where such actions would significantly disrupt a
22 readily available and irreplaceable food supply;

23 (2) work with governments through existing
24 treaties and the United Nations to develop a new
25 protocol or agreement, and amend existing protocols

1 or agreements, regarding stopping deforestation and
2 other ecosystem destruction, closing commercial
3 wildlife markets for human consumption, and end
4 the associated commercial trade of terrestrial wildlife
5 that feed and supply those markets while ensuring
6 full consideration to the needs and rights of indige-
7 nous peoples and local communities that are depend-
8 ent on wildlife for their food security, national sov-
9 ereignty, and local laws and customs;

10 (3) disrupt and ultimately end the commercial
11 international trade in terrestrial wildlife associated
12 with wildlife markets and eliminate commercial wild-
13 life markets;

14 (4) disrupt and ultimately eliminate wildlife
15 trafficking associated with the operation of wildlife
16 markets;

17 (5) raise awareness on the dangerous potential
18 of wildlife markets as a source of zoonotic diseases
19 such as the novel coronavirus that causes the disease
20 COVID–19 and reduce demand for the consumption
21 of wildlife through evidence-based behavior change
22 programs while ensuring that existing wildlife habi-
23 tat is not encroached upon or destroyed as part of
24 this process;

1 (6) encourage and support alternate forms of
2 food production, farming, and shifts to domestic
3 animal- or plant-source foods instead of terrestrial
4 wildlife where able and appropriate, and reduce con-
5 sumer demand for terrestrial wildlife through en-
6 hanced local and national food systems, especially in
7 areas where wildlife markets play a significant role
8 in meeting subsistence needs while ensuring that ex-
9 isting wildlife habitat is not encroached upon or de-
10 stroyed as part of this process; and

11 (7) strive to increase hygienic standards imple-
12 mented in markets around the globe, especially those
13 specializing in the sale of products intended for
14 human consumption.

15 (c) ACTIVITIES.—

16 (1) GLOBAL PROHIBITIONS AND ENFORCE-
17 MENT.—The United States Government, working
18 through the United Nations and its components, as

21 in furtherance of the policies described in subsection
22 (b), shall—

23 (A) collaboratively with other member
24 states, issue declarations, statements, and com-
25 muniques urging a global ban on commercial

1 wildlife markets and trade for human consump-
2 tion; and

3 (B) urge increased enforcement of existing
4 laws to end wildlife trafficking.

5 (2) INTERNATIONAL COALITIONS.—The Sec-
6 retary of State shall seek to build international coali-
7 tions focused on ending commercial wildlife markets
8 for human consumption and associated wildlife trade
9 which feeds and supplies said markets, with a focus
10 on the following efforts:

11 (A) Providing assistance and advice to
12 other governments in the adoption of legislation
13 and regulations to close wildlife markets and
14 trade for human consumption.

15 (B) Creating economic pressure on wildlife
16 markets and their supply chains to prevent
17 their operation.

18 (C) Providing assistance and guidance to
19 other governments to prohibit the import, ex-
20 port, and domestic trade of live terrestrial wild-
21 life for the purpose of human consumption.

22 (D) Engaging and receiving guidance from
23 key stakeholders at the ministerial, local gov-
24 ernment, and civil society level in countries that
25 will be impacted by this Act and where wildlife

1 markets and associated wildlife trafficking is
2 the predominant source of meat or protein, in
3 order to mitigate the impact of any inter-
4 national efforts on local customs, conservation
5 methods, or cultural norms.
