The cabinet may use funds appropriated under this section to contract with public and private agencies, long-term care facilities, local governments, and other providers to provide core and essential services. The cabinet may provide core and essential services when such services cannot otherwise be purchased.
- (2) In providing essential services, all existing community resources available to functionally impaired elderly persons shall be utilized. Additional services may be provided, but shall not be funded from funds appropriated under this section. Volunteers may be used where practicable to provide essential services to functionally impaired elderly persons. The cabinet or contracting entity shall provide or arrange for the provision of training and supervision of volunteers to ensure the delivery of quality services. The cabinet or contracting entity shall provide or arrange for appropriate insurance coverage to protect volunteers from personal liability while acting within the scope of their volunteer duties. In providing essential services under this section, the cabinet shall provide services to meet the needs of the minority elderly as identified by the cabinet pursuant to KRS 205.201.
- (3) Entities contracting with the cabinet to provide essential services under KRS 205.455 and this section shall provide a minimum of fifteen percent (15%) of the funding necessary for the support of program operations. No local match is required for assessment and case management. Local contributions, whether materials, commodities, transportation, office space, personal services, or other types of

1 facilities services, or funds may be evaluated and counted toward the fifteen percent
2 (15%) local funding requirements.

3 (4) When possible, funding for core services may be obtained under:

4 (a) The Comprehensive Annual Social Services Program plan under Title XX of
5 the Social Security Act;

6 (b) The Medical Assistance Plan under Titles XVIII and XIX of the Social
7 Security Act;

8 (c) The State Plan on Aging under the Older Americans Act; or

14 (5) Providers contracting with the cabinet to provide essential services shall be
15 responsible for the collection of fees and contributions for services in accordance
16 with administrative regulations promulgated by the cabinet. Providers are
17 authorized to assess and collect fees for services rendered in accordance with those
18 administrative regulations. To help pay for essential services received, a
19 functionally impaired elderly person shall pay an amount of money based on an
20 overall ability to pay in accordance with a schedule of fees established by the
21 cabinet. Fees shall reflect the degree to which the cabinet or contracting entity uses
22 volunteers in the provision of services. Where essential services are provided by
23 volunteers, fees shall only be assessed in an amount that will cover the cost of
24 materials and other goods used in the provision of services. The cost of materials
25 and other goods used by volunteers shall be reasonably similar to the cost of goods
26 when paid personnel are used. Fees shall not be required of any person who is

17 XIX of the Social Security Act which require that the Kentucky Medical Assistance
18 Program recover from third parties which have a legal liability to pay for care and
