6 government treasury, whichever is appropriate, the annual~~monthly~~
7 compensation the fiscal court of each county shall fix, subject to this
8 subsection.~~[the following minimums:]~~

9 (b) 1. a. The salary schedule for coroners in subdivision b. of this
10 subparagraph provides for nine (9) levels of minimum salaries
11 based upon the population of the county in the year prior to the
12 election of the coroner. To implement the salary schedule, the
13 Department for Local Government shall, by November 1 of each
14 year preceding the election of the coroner, certify for each
15 county the population group applicable to each county based on
16 the most recent estimates of the United States Department of
17 Commerce, Bureau of the Census. The salary schedule shall
18 remain as determined by the Department for Local Government,
19 regardless of changes in the population estimates or the actual
20 census count that may occur during the term for which the
21 coroner has been elected or appointed.

22 b. i. The salary schedule provides four (4) steps for yearly
23 increments within each population group. A coroner's
24 salary shall be at a minimum equal to the amount stated for
25 the first step within the applicable population group for the
26 first year or portion thereof the coroner serves in office.
27 Thereafter, on January 1 of each subsequent year, the

coroner's salary shall be advanced automatically to the next step in the salary schedule for the population group and shall be at a minimum equal to the salary amount stated for that step.

ii. Prior to assuming office, any person assuming the office as a coroner must certify to the commissioner of the Department for Local Government the total number of years, not to exceed four (4) years, that the person has previously served as a coroner. The Department for Local Government shall place the coroner in the proper step based upon a formula of one (1) incremental step per full calendar year of service:
