A BILL TO BE ENTITLED
AN ACT TO REQUIRE THE USE OF ZERO-BASED BUDGETING FOR STATE AGENCIES
ON A ROTATING BASIS.

The General Assembly of North Carolina enacts:

SECTION 1. Article 3 of Chapter 143C of the General Statutes is amended by adding a new section to read:

"§ 143C-3-3.1. Zero-based budgeting estimates.

(a) Commencing with the fiscal year beginning July 1, 2024, in each even-numbered year each State agency of the executive branch designated in a scheduled year, as described in subsection (e) of this section, shall prepare and submit to the Office of State Budget and Management (OSBM) a zero-based budget plan for the fiscal biennium beginning July 1 of the following fiscal year. OSBM shall provide technical assistance to support each State agency in completing its zero-based budget plan. For purposes of this section, the term "zero-based budget" means a budget that reflects the amount of funding deemed necessary to achieve the most cost-effective performance of a State agency pursuant to an accompanying narrative delineating the tasks to be performed by the State agency together with the goals and objectives for the State agency for a period not to exceed two years. The budget shall have a zero dollar amount as its basis and shall not reflect any prior appropriation amount, adjusted or otherwise.

(b) At a minimum, a State agency's plan shall contain the following information:

- (1) A description of those discrete activities that comprise the agency, and a justification for the existence of each activity by reference to statute or other legal authority.
- (2) For each activity, a quantitative estimate of any adverse impacts that could reasonably be expected should the activity be discontinued, together with a full description of the methods by which the adverse impact is estimated.
- (3) A list of quantifiable program outcomes that measure the efficiency and effectiveness of each program.
- (4) For each activity, an itemized account of expenditures that would be required to maintain the activity at the minimum level of service required by the statutory authority, together with a concise statement of the quantity and quality of services required at that minimum level.
- (5) For each activity, an itemized account of expenditures required to maintain the activity at current levels of service, together with a concise statement of the quantity and quality of services being provided.
- (6) A ranking of all activities that shows the relative contribution of each activity to the overall goals and purposes of the agency at current service levels.
