banks) to maintain donor identifying information and update it every 3 years. The bill requires donor banks to collect identifying information and medical history from the gamete donor only at the initial donation.

Current law prohibits donor banks from prohibiting an adult donor-conceived person from communicating about the gamete donor with the donor-conceived person's friends, family, or other third parties. The bill eliminates that prohibition.

The bill repeals certain provisions relating to gamete donor record stewardship in the event of donor bank dissolution, bankruptcy, or insolvency and eliminates the requirement that donor banks inform a recipient parent about future implications about a gamete donor's medical history or other persons conceived using the same gamete donor.

Current law requires the department of public health and environment (department) to draft written materials that must be provided to individuals prior to donating or receiving gametes. The bill removes the responsibility from the department and requires donor banks to create the materials.

Current law requires donor recipients to update and inform donor banks regarding live births using donated gametes. The bill allows donor banks to only recommend this step to recipients of donor gametes.

Donor bank licensure renewal is extended from annually to once every 5 years. The requirement that the department investigate donor banks outside the state of Colorado is eliminated, and the fine for donor banks that are out of compliance is modified from an automatic \$20,000 per-day fine to a fine to be determined by the state board of health.

1 *Be it enacted by the General Assembly of the State of Colorado:*

2 **SECTION 1. Short title.** The short title of this act is the
3 "Reducing Barriers to Building Families Act".

4 **SECTION 2. Legislative declaration.** (1) The general assembly
5 finds that:

6 (a) On February 16, 2024, the Alabama supreme court ruled that
7 embryos formed through in vitro fertilization, or IVF, are considered
8 children under the state's "Wrongful Death of a Minor Act";

9 (b) The court's 131-page opinion held that the act applies to all
10 unborn children, regardless of their location. The chief justice of Alabama
11 quoted the Bible and stated that embryos are children in cryogenic

1 nurseries. The result was that medical professionals performing IVF could
2 be legally prosecuted for manslaughter if an embryo was destroyed.

3 (c) The ruling raised great concerns about the impact on, in
4 particular, provision of women's health-care services, fertility care for all
5 individuals, and assisted reproductive technologies. Many legal and
6 medical experts across the country, including in Colorado, believe the
7 ruling, in ways similar to what has happened in Alabama, will interfere
8 nationwide with women's access to medical care, including necessary
9 medical care following miscarriages; will make it difficult for people to
10 undergo fertility care, including IVF and embryo transfer; could end or
11 severely limit IVF medical treatments; and could interfere with
12 individuals even transferring their embryos to clinics outside of our state.

13 (d) After the ruling, IVF clinics in Alabama ceased providing
14 infertility medical services and also ceased transferring embryos owned
15 by their patients to clinics outside of Alabama due to potential legal and
16 felony risks if an embryo was inadvertently destroyed.

17 (2) (a) The Alabama ruling, coupled with new, intrusive, and
18 difficult-to-implement requirements for gamete donation, has had
19 negative impacts on people seeking fertility treatments in Colorado.

20 (b) Colorado has been recognized for decades as a medical
21 destination for those seeking sophisticated and cutting-edge medical care
22 for infertility. Colorado's fertility clinics are highly respected; the state's
23 medical practitioners are known as pioneers in assisted reproductive
24 technologies, or ART medical care; and Colorado continues to advance
25 and provide top-notch ART fertility care.

26 (c) Equally matching its sophisticated ART medical care,
27 Colorado also ranks highly among all states due to its progressive laws

1 and legal protections for children born through assisted reproductive
2 technologies, laws that ensure donors of gametes (ova and sperm) and
3 embryos are not considered legal parents of any resulting children, and
4 the laws protect the parental rights of parents whose children are born
5 through ART, including through donated gametes and surrogacy.
6 Children born through ART in Colorado legally are able to know who
7 their parents are from the moment of birth, and potential parents are
8 likewise safeguarded due to Colorado's protections, including not
9 requiring a genetic relationship between parent and child and not
10 requiring parents to be married, and including opposite gender
11 individuals' access to ART, making Colorado a top choice for domestic
12 and international individuals seeking assisted reproduction medical care
13 treatment options.

14 (3) Therefore, the general assembly declares that:

15 (a) Colorado should remain a world-class destination for all
16 people who want to start a family, providing safe, cutting-edge medical
17 care for individuals in need of those services;

18 (b) It is also important to keep the transparency and rules around
19 disclosure in order to address the concerns of donor-conceived
20 individuals while preserving the whole ecosystem of Colorado's
21 world-class assisted reproduction technologies, infertility medical care
22 options, and gamete donation medical environment; and

23 (c) Recent legislation in Colorado has been challenging to
24 implement and has had a chilling effect on donations, as individuals are
25 daunted by the invasive reporting requirements. This act seeks to
26 streamline implementation of the provisions of the "Donor-Conceived
27 Persons Protection Act" while preserving the important transparency and

1 reporting requirements.

2 **SECTION 3.** In Colorado Revised Statutes, **add** 25-57-113 as

1 **SECTION 8.** In Colorado Revised Statutes, 25-57-109, **amend**
2 (1)(a); and **add** (1)(c) as follows:

3 **25-57-109. Donor age limits - limits on number of families per**
4 **donor - restriction on dissemination of gametes - limits on**

6 (1) (a) Except as provided in subsection (4) of this section, a gamete
7 agency, gamete bank, or fertility clinic shall make a good faith effort to
8 determine how many families are established with gametes matched or
9 provided by the gamete agency, gamete bank, or fertility clinic from each
10 donor by conducting sufficient record-keeping, requiring recipients as a
11 condition of receiving donor gametes, to provide information on live
12 births, and requesting information from recipients on live births, and
13 using industry best practices, including methods or processes to account
14 for the number or percentage of live births that are likely not reported,
15 such as the correlation between the number of units of donor gametes sold
16 or released and the resulting live births. A gamete agency, gamete bank,
17 or fertility clinic shall not match or provide gametes from a donor to
18 additional families once the gamete agency, gamete bank, or fertility
19 clinic has record of or should reasonably know that twenty-five families
20 have been established using a single donor's gametes in or outside of
21 Colorado, with no limit on the number of children conceived by each of
22 the families, unless the donor requests, and the gamete agency, gamete
23 bank, or fertility clinic agrees to, a lower limit on the number of families.
24 This limit does not include any children conceived by the donor as a
25 parent or children conceived with the donor's gametes when the donor is
26 known to the recipient parent or parents at the time of the donation. This
27 limit does not include donations of embryos from one family to another

1 family.

2 (c) A GAMETE AGENCY, GAMETE BANK, OR FERTILITY CLINIC SHALL
3 NOT DISSEMINATE A DONOR'S GAMETES TO ANY ADDITIONAL RECIPIENTS
4 WITHOUT THE RECIPIENT'S INFORMED WRITTEN CONSENT IF THE DONOR
5 INFORMS THE GAMETE AGENCY, GAMETE BANK, OR FERTILITY CLINIC THAT
6 THE DONOR EXPERIENCED SIGNIFICANT MEDICAL HISTORY UPDATES.

7 **SECTION 9.** In Colorado Revised Statutes, 25-57-110, **amend**
8 (2)(a) and (3)(a)(I); and **repeal** (3)(a)(III) as follows:

9 **25-57-110. License required - application - inspection -**
10 **issuance, denial, suspension, or revocation - fees - civil penalties -**
11 **rules.** (2) (a) A gamete agency, gamete bank, or fertility clinic shall
12 submit an ~~annual~~ application and fee EVERY TWO YEARS for a license to
13 operate on the form and in the manner prescribed by the department. THE
14 DEPARTMENT MAY ADOPT A RULE TO EXTEND THE PERIOD OF LICENSURE
15 UP TO FIVE YEARS IF THE DEPARTMENT DETERMINES THE CHANGE TO BE
16 APPROPRIATE AND IN THE PUBLIC INTEREST.

17 (3) (a) (I) The department shall investigate and review each
18 original application and each renewal application for a license to operate
19 as a gamete agency, gamete bank, or fertility clinic. The department shall

21 application process to document compliance with licensing requirements.
22 ~~Subject to available appropriations, the department may, as it deems~~
23 ~~necessary, perform on-site inspections or complaint investigations of a~~
24 ~~gamete agency, gamete bank, or fertility clinic located outside of~~
25 ~~Colorado.~~ The department shall determine an applicant's compliance with
26 this article 57, and the rules adopted pursuant to this article 57, for the
27 collection and provision of gametes from donors who are unknown to a

1 recipient at the time of the donation before issuing a license.

2 (III) ~~When investigating or reviewing the records of a gamete~~
3 ~~agency, gamete bank, or fertility clinic located outside of Colorado, the~~
4 ~~department shall investigate and review only the records pertaining to~~
5 ~~donors whose gametes or embryos were matched or provided to recipients~~
6 ~~in Colorado.~~

8 **SECTION 10. Safety clause.** The general assembly finds,
9 determines, and declares that this act is necessary for the immediate
10 preservation of the public peace, health, or safety or for appropriations for
11 the support and maintenance of the departments of the state and state
12 institutions.
