6 ~~discretion.]~~

7 (c) A district which has experienced an increase in adjusted average daily
8 attendance, as defined by administrative regulation, of twenty percent (20%)
9 or more over a five (5) year period may submit a request to the commissioner
10 of education to use capital outlay funds for the operation of a new school for
11 the first two (2) years following its opening. The commissioner may grant or
12 deny the district's request at his or her discretion.

13 (d) A local school district may submit a request to the commissioner of education
14 to use capital outlay funds for maintenance expenditures or for the purchase of
15 property insurance without forfeiting the district's participation in the School
16 Facilities Construction Commission program. Maintenance requests may
17 include other priorities that are not considered major renovations, such as
18 repair, renovation, or system upgrades that are necessary to maintain the
19 integrity of an existing school facility.

20 (e) A local district may use capital outlay funds to employ facility-related
21 personnel, as defined by the Kentucky Department of Education.

22 (5) The district may contribute capital outlay funds for energy conservation measures
23 under guaranteed energy savings contracts pursuant to KRS 45A.345, 45A.352, and
24 45A.353. Use of these funds, provided in KRS 45A.353, 56.774, and 58.600, shall
25 be based on the following:

26 (a) The energy conservation measures shall include facility alteration;

27 (b) The energy conservation measures shall be identified in the approved district

1 facilities~~[district's approved facility]~~ plan;

2 (c) The current facility systems are consuming excess maintenance and operating
3 costs;

4 (d) The savings generated by the energy conservation measures are guaranteed;

5 (e) The capital outlay funds contributed to the energy conservation measures shall
6 be defined as capital cost avoidance as provided in KRS 45A.345(2) and shall
7 be subject to the restrictions on usage as specified in KRS 45A.352(9); and

8 (f) The equipment that is replaced shall have exceeded its useful life as
9 determined by a life-cycle cost analysis.

10 (6) If any district has a special levy for capital outlay or debt service that is equal to the
11 capital outlay allotment or a proportionate fraction thereof, and spends the proceeds
12 of that levy for the above-named purposes, the commissioner of education under
13 administrative regulations of the Kentucky Board of Education, may authorize the
14 district to use all or a proportionate fraction of its capital outlay allotment for
15 current expenses. However, a district which uses capital outlay funds for current
16 expenses shall not be eligible to participate in the School Facilities Construction
17 Commission funds, except when the current expenditures are approved by the
18 commissioner of education under subsection (4)~~[(b) or]~~(c) of this section.

19 (7) If ~~[a survey shows that]~~a school district has no capital outlay needs as shown in
20 subsection (4)(a)1., 2., 3., and 4. of this section, upon approval of the commissioner
21 of education, these funds may be used for school plant maintenance, repair,
22 insurance on buildings, replacement of equipment, purchase of school buses, and
23 the purchase of modern technological equipment, including telecommunications
24 hardware, televisions, computers, and other technological hardware to be utilized
25 for educational purposes only.

26 (8) ~~[In surveying the schools,]~~The Department of Education shall **regularly conduct a**
27 **review to** designate each school facility as a permanent, functional, or transitional

1 center.

2 (a) "Permanent center" means a center which meets the program standards
3 approved by the Kentucky Board of Education, is located so that students are
4 not subjected to an excessive amount of time being transported to the site, and
5 has established an attendance area which will maintain enrollment at capacity
6 but will also avoid overcrowding.

7 (b) "Functional center" means a center which does not meet all the criteria
8 established for a permanent facility, but is adequate to meet accreditation
9 program standards to insure no substantial academic or building deficiency.
10 ~~[The facility plan shall include additions and renovations necessary to meet~~
11 ~~current accreditation standards for which federal, state, and local funds may~~
12 ~~be used.]~~

13 (c) "Transitional center" means a center which the local board of education has
14 determined shall no longer be designated permanent or functional. The center
15 shall be destined to be closed and shall not be eligible for new construction,
16 additions, or major renovation. However, the board of education shall
17 maintain any operating transitional center to provide a safe and healthy
18 environment for students.

19 (9) ~~[Beginning in fiscal year 2011-2012,]~~ The Kentucky Department of Education shall
20 standardize the process for evaluating the overall quality and condition of all school
21 buildings across the state. ~~The [evaluation]~~ process shall:

22 (a) Result in consistent categorization of buildings for local planning purposes
23 and for the distribution of state general fund moneys designated for capital
24 construction;

25 (b) Be based on measurable, objective criteria;

26 (c) Include numerical scoring with weights to recognize building components and
27 characteristics that address:

1. Life safety issues;
 2. Compliance with state and federal codes;
 3. Compliance with requirements under the Americans with Disabilities Act;
 4. Community spaces;
 5. Instructional areas;
 6. Mechanical, electrical, plumbing, and other technology systems;
 7. Site and exterior building conditions;
 8. Age of the buildings;
 9. Feasibility of building additions or major renovations;
 10. The districts' facility capacities;
 11. Current use of temporary facilities; and
 12. Projected enrollment growth; and
- (d) Use of a third-party evaluator that utilizes an already established software-based system to perform the first, base-line evaluation.
- (10) The Kentucky Board of Education shall promulgate an administrative regulation upon recommendation of the Kentucky Department of Education and the School Facilities Construction Commission to implement subsection (9) of this section.
- (11) Under administrative regulations promulgated by the Kentucky Board of Education, each district shall use the review and evaluation established in subsections (8) and (9) of this section to develop a district facilities plan to outline facility needs, plan future construction and renovation, and prioritize needed projects. The district facilities plan:**
- (a) Shall place each current facility or any future projected facility into categorical priorities and develop a priority order of district facilities projects;**
- (b) May place extracurricular facilities into any categorical priority;**

1 (c) Shall include any energy conservation measures planned under subsection
2 (5) of this section;

3 (d) Shall include any additions and renovations necessary for a school facility
4 rated as a functional center to meet current accreditation standards for
5 which federal, state, and local funds may be used; and

6 (e) Shall be submitted by the local board of education to the commissioner or
7 designee for approval. The commissioner or designee shall approve or
8 disapprove the plan within thirty (30) days of submission. An approved plan
9 shall be reported to the Kentucky Board of Education. A local board may
10 resubmit a disapproved plan with amendments or appeal the disapproval to
11 the Kentucky Board of Education at the next regular meeting.

12 (12) Notwithstanding the requirements for the district facilities plan under subsection
13 (11) of this section, if a local board determines that a school facility contains
14 levels of radon that expose students and district employees to danger, the board
15 may approve the process of abating the radon in the facility as an emergency
16 without amending the district facilities plan. The district may utilize funds
17 otherwise restricted to use for projects on the district facilities plan to conduct the
18 mitigation of the danger.

19 (13)~~[(11)]~~ If a local school board authorized elementary, middle, or secondary education
20 classes in a facility of a historical settlement school on January 1, 1994, the board
21 shall continue to use the facilities provided by the settlement school if the facilities
22 meet health and safety standards for education facilities as required by
23 administrative regulations. The local school board and the governing body of the
24 settlement school shall enter into a cooperative agreement that delineates the role,
25 responsibilities, and financial obligations for each party.

26 (14)~~[(12)]~~ Notwithstanding the provisions of subsections (4) and (6) of this section, a
27 local district that has requested a mid-year adjustment in the support education

1 excellence in Kentucky funding under KRS 157.360(16) may request permission
2 from the commissioner of education to use capital outlay funds for the purchase of
3 school buses or to use the capital outlay funds for increased operational expenses
4 for the first three (3) years following the increased growth in the district without
5 forfeiture of the district's participation in the School Facilities Construction
6 Commission Program. The commissioner may grant or deny the district's request.

7 ➔Section 5. KRS 157.440 is amended to read as follows:

8 (1) (a) Notwithstanding any statutory provisions to the contrary, effective for school
9 years beginning after July 1, 1990, the board of education of each school
10 district may levy an equivalent tax rate as defined in subsection (9)(a) of KRS
11 160.470 which will produce up to fifteen percent (15%) of those revenues
12 guaranteed by the program to support education excellence in Kentucky. The
13 levy for the 1990-91 school year shall be made no later than October 1, 1989,
14 and no later than October 1, 1990, for the 1991-92 school year, and by
15 October 1 of each odd-numbered year thereafter. Effective with the 1990-91
16 school year, revenue generated by this levy shall be equalized at one hundred
17 fifty percent (150%) of the statewide average per pupil assessment.

18 (b) To participate in the Facilities Support Program of Kentucky, the board of
19 education of each school district shall commit at least an equivalent tax rate of
20 five cents (\$0.05) to debt service, new facilities, or major renovations of
21 existing school facilities, or the purchase of land~~[if approved by the~~
22 ~~commissioner of education as provided in KRS 157.420(4)(b)].~~ The five cents
23 (\$0.05) shall be in addition to the thirty cents (\$0.30) required by KRS
24 160.470(9) and any levy pursuant to paragraph (a) of this subsection. The levy
25 shall be made no later than October 1 of each odd-numbered year. Eligibility
26 for equalization funds for the biennium shall be based on the district funds
27 committed to debt service on that date. The five cents (\$0.05) shall be

1 equalized at one hundred fifty percent (150%) of the statewide average per
2 pupil assessment. The equalization funds shall be committed to debt service to
3 the greatest extent possible, but any excess equalization funds not needed for
4 debt service shall be deposited to a restricted building fund account. The
5 funds may be escrowed for future debt service or used to address the priority
6 order~~[categorical priorities]~~ listed in the approved district facilities plan
7 pursuant to Section 4 of this Act~~[KRS 157.420]~~.

8 (c) The board of education of each school district may contribute the levy
9 equivalent tax rate of five cents (\$0.05) and equalization funds for energy
10 conservation measures under guaranteed energy savings contracts pursuant to
11 KRS 45A.345, 45A.352, and 45A.353. Use of these funds, as provided under
12 KRS 45A.353, 56.774, and 58.600 shall be based on the following guidelines:

- 13 1. Energy conservation measures shall include facility alteration;
- 14 2. Energy conservation measures shall be identified in the approved
15 district facilities~~[district's approved facility]~~ plan pursuant to Section 4
16 of this Act~~[KRS 157.420]~~;
- 17 3. The current facility systems are consuming excess maintenance and
18 operating costs;
- 19 4. The savings generated by the energy conservation measures are
20 guaranteed;
- 21 5. The levy equivalent tax rate of five cents (\$0.05) and equalization funds
22 contributed to the energy conservation measures shall be defined as
23 capital cost avoidance as provided in KRS 45A.345(2) and shall be
24 subject to the restrictions on usage as specified in KRS 45A.352(9); and
25 6. The equipment that is replaced has exceeded its useful life as
26 determined by a life cycle cost analysis.

27 (d) The rate levied by a district board of education under the provisions of this

1 subsection shall not be subject to the public hearing provisions of KRS
2 160.470(7) or to the recall provisions of KRS 160.470(8).

3 (e) A school district which is at or above the equivalent tax rates permitted under
4 the provisions of the Kentucky Education Reform Act of 1990, 1990 Ky. Acts
5 ch. 476, shall not be required to levy an equivalent tax rate which is lower
6 than the rate levied during the 1989-90 school year.

7 (2) (a) A district may exceed the maximum provided by subsection (1) of KRS
8 160.470 provided that, upon request of the board of education of the district,
9 the county board of elections shall submit to the qualified voters of the
10 district, in the manner of submitting and voting as prescribed in paragraph (b)
11 of this subsection, the question whether a rate which would produce revenues
12 in excess of the maximum provided by subsection (1) of KRS 160.470 shall
13 be levied. The rate that may be levied under this section may produce revenue
14 up to no more than thirty percent (30%) of the revenue guaranteed by the
15 program to support education excellence in Kentucky plus the revenue
16 produced by the tax authorized by this section. Revenue produced by this levy
17 shall not be equalized with state funds. If a majority of those voting on the
18 question favor the increased rate, the tax levying authority shall, when the
19 next tax rate for the district is fixed, levy a rate not to exceed the rate
20 authorized by the voters.

21 (b) The election shall be held not less than fifteen (15) or more than thirty (30)
22 days from the time the request of the board is filed with the county clerk, and
23 reasonable notice of the election shall be given. The election shall be
24 conducted and carried out in the school district in all respects as required by
25 the general election laws and shall be held by the same officers as required by
26 the general election laws. The expense of the election shall be borne by the
27 school district.

1 (3) For the 1966 tax year and for all subsequent years for levies which were approved
2 prior to December 8, 1965, no district board of education shall levy a tax at a rate
3 under the provisions of this section which exceeds the compensating tax rate as
4 defined in KRS 132.010, except as provided in subsection (4) of this section and
5 except that a rate which has been approved by the voters under this section but
6 which was not levied by the district board of education in 1965 may be levied after
7 it has been reduced to the compensating tax rate as defined in KRS 132.010, and
8 except that in any school district where the rate levied in 1965 was less than the
9 maximum rate which had been approved by the voters, the compensating tax rate
10 shall be computed and may be levied as though the maximum approved rate had
11 been levied in 1965 and the amount of revenue which would have been produced
12 from such maximum levy had been derived therefrom.

13 (4) Notwithstanding the limitations contained in subsection (3) of this section, no tax
14 rate shall be set lower than that necessary to provide such funds as are required to
15 meet principal and interest payments on outstanding bonded indebtedness and
16 payments of rentals in connection with any outstanding school revenue bonds
17 issued under the provisions of KRS Chapter 162.

18 (5) The chief state school officer shall certify the compensating tax rate to the levying
19 authorities.

22 (5) preceding years;

6 2687 note; and

7 b. The commissioner of education has determined, based upon the
8 presentation of credible data, that the projected increased number
9 of students is sufficient to require new facilities or the major
10 renovation of existing facilities to accommodate the new students,
11 and has approved the imposition of the additional levy.

12 2. Any local school district that imposes both the levy authorized by
13 paragraph (a) of this subsection and the additional levy authorized by

7 Commonwealth and the provision of funding by the General Assembly.
8 Equalization funds shall be used as provided in KRS 157.440(1)(b).

9 (b) It is the intent of the General Assembly that for levies described in this
10 subsection that are imposed on or after April 27, 2016, equalization funds, if
11 provided by the General Assembly, shall terminate upon the earlier of June
12 30, 2038, or the date the bonds for the local school district supported by this
13 equalization funding are retired. Equalization shall be subject to the fiscal

21 this section; and

1 ➔Section 9. KRS 157.622 is amended to read as follows:

5 required by KRS 157.620, the commission shall compute the unmet needs of all
6 eligible districts as defined by KRS 157.615;
- 7 (2) Assistance to each eligible district shall be determined by computing the ratio of the
8 available state funding to total unmet need statewide. Based on the computed ratio,
9 an equivalent percentage of each eligible district's unmet need will be funded;
- 10 (3) Each eligible district which has otherwise complied with the provisions of KRS
11 157.615 and 157.620 shall be offered sufficient funding to finance construction of
12 the portion of its unmet need computed by applying the ratio determined in
13 subsection (2) of this section to the total unmet need of the district. The funds shall
14 be applied to the projects listed on the most current approved district
15 facilities~~[facility]~~ plan~~[approved by the Kentucky Board of Education]~~, and the
16 funds shall be applied to projects in the priority order listed on the plan. Exceptions
17 to the priority order of projects may be approved by the School Facilities
18 Construction Commission when it is documented by the local board of education
19 and approved by the Kentucky Board of Education upon the recommendation of the
20 chief state school officer that the school district's priority order of needs has
21 changed. The exceptions shall not alter the amount of the offer of assistance;
- 22 (4) The commission shall promulgate administrative regulations whereby an eligible
23 district which fails in any budget period to receive an allocation of state funds that
24 is sufficient to fund the district's priority project or portions thereof may accumulate
25 credit, subject to the availability of funds, for its unused state allocation for a period
26 not to exceed eight (8) years. Accumulation and retention of credit is contingent
27 upon the transfer of available local revenue to the restricted construction account by

1 June 30 of each year;

2 (5) Except as provided in subsection (6) of this section, all unused state allocations
3 accumulated according to the provisions of subsection (3) of this section shall be
4 reallocated by the commission. The reallocation shall follow the process and intent
5 as set forth in this section with eligible districts being those districts which
6 contribute unused state allocations to the reallocation account. Any district which
7 has an unused state allocation after funding its first priority project in a biennium is
8 not eligible for consideration for additional funds from the reallocation account.
9 Any funding received and utilized from the reallocation account by a district shall
10 equally reduce the credit as set forth in this section; and

11 (6) Refinancing savings that have occurred since July 1, 1997, and subsequent savings
12 to the commission generated over the life of a bond by the local district's
13 refinancing of the bond shall be dedicated to the district's account by the

1 (b) Determine the statewide unmet needs for career and technical education
2 capital projects, including renovations and expansions of existing facilities
3 and the construction of new technology centers, through a needs assessment
4 process. This process shall be tied to specific criteria in determining if the
5 current programs or career pathways offered in locally and state-operated
6 facilities are appropriate for the students in the school districts served as well
7 as for determining if new programs are needed. The statewide assessment of
8 capital needs for career and technical education shall be incorporated into the
9 *district facilities plan of each* local school district~~[facility plan]~~ as required
10 by *Section 4 of this Act*~~[KRS 157.420]~~. The Kentucky Board of Education
