8 ➔Section 2. Having determined that changes are needed to the current state
9 processes for funding career and technical education to ensure adequate and equitable
10 funding and that a unified locally operated career and technical system is essential to
11 ensuring the Commonwealth's investments in career and technical education lead to
12 accomplishing state priorities, it is the intent of the General Assembly that all funds
13 appropriated for career and technical education beginning with the 2024-2025 fiscal year
14 be allocated using the comprehensive funding model developed in Section 1 of this Act.
