HOUSE BILL 829

C5 5lr1782

By: Delegate Charkoudian

Introduced and read first time: January 29, 2025

Assigned to: Economic Matters

A BILL ENTITLED

1 AN ACT concerning

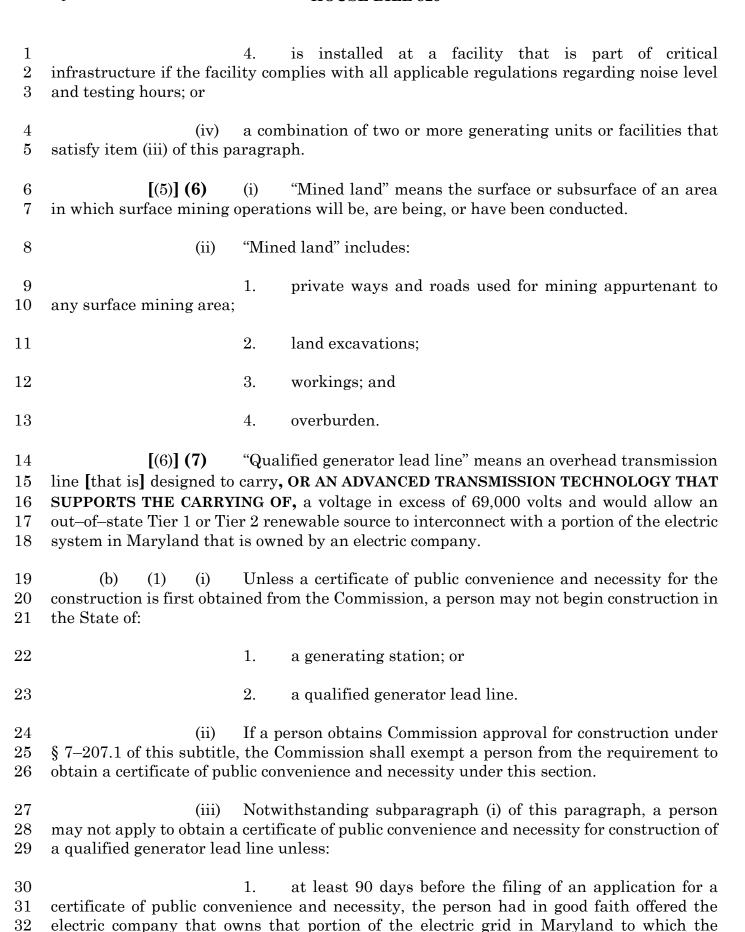

2

Public Utilities - Transmission Lines - Advanced Transmission Technologies

- 3 FOR the purpose of altering the definition of "qualified generator lead line" for purposes of 4 provisions of law regarding certificates of public convenience and necessity; requiring 5 an applicant for a certificate of public convenience and necessity for the construction 6 of an overhead transmission line to include certain analyses; requiring the Public 7 Service Commission to consider certain alternatives before taking final action on an 8 application for a certificate of public convenience and necessity for the construction 9 of an overhead transmission line; requiring each owner or operator of an overhead transmission line to submit certain reports to the Commission; and generally 10 11 relating to overhead transmission lines and advanced transmission technologies.
- 12 BY repealing and reenacting, with amendments,
- 13 Article Public Utilities
- 14 Section 7–207(a), (b), and (f)
- 15 Annotated Code of Maryland
- 16 (2020 Replacement Volume and 2024 Supplement)
- 17 BY adding to
- 18 Article Public Utilities
- 19 Section 7–207.4
- 20 Annotated Code of Maryland
- 21 (2020 Replacement Volume and 2024 Supplement)
- 22 SECTION 1. BE IT ENACTED BY THE GENERAL ASSEMBLY OF MARYLAND,
- 23 That the Laws of Maryland read as follows:
- 24 Article Public Utilities
- 25 7–207.

1	(a)	(1)	In th	is se	ction the f	ollowin	ig words ha	ve the	e mear	nings in	dicate	d.

1 2 3	3. AN ANALYSIS OF THE USE OF ADVANCED TRANSMISSION TECHNOLOGIES AND WHETHER THE USE WILL DELAY OR AVOID FUTURE TRANSMISSION OR GENERATION UPGRADES.
4 5 6 7	(V) The Commission may not issue a certificate of public convenience and necessity for the construction of an overhead transmission line in the electric distribution service territory of an electric company to an applicant other than an electric company if:
8 9	1. the overhead transmission line is to be located solely within the electric distribution service territory of that electric company; and
10 11	2. the cost of the overhead transmission line is to be paid solely by that electric company and its ratepayers.
12 13 14	[(v)] (VI) 1. This subparagraph applies to the construction of an overhead transmission line for which a certificate of public convenience and necessity is required under this section.
15 16 17 18	2. On issuance of a certificate of public convenience and necessity for the construction of an overhead transmission line, a person may acquire by condemnation, in accordance with Title 12 of the Real Property Article, any property or right necessary for the construction or maintenance of the transmission line.
19 20 21 22	(4) (i) Except as provided in subparagraph (ii) of this paragraph, for construction related to an existing overhead transmission line designed to carry a voltage in excess of 69,000 volts, the Commission shall waive the requirement to obtain a certificate of public convenience and necessity if the Commission finds that the construction does not:
23 24	1. require the person to obtain new real property or additional rights—of—way through eminent domain; or
25	2. require larger or higher structures to accommodate:
26	A. increased voltage; or
27	B. larger conductors.
28 29 30	(ii) 1. For construction related to an existing overhead transmission line, including repairs, that is necessary to avoid an imminent safety hazard or reliability risk, a person may undertake the necessary construction.
31 32 33	2. Within 30 days after construction is completed under subsubparagraph 1 of this subparagraph, a person shall file a report with the Commission describing the work that was completed.

- 1 For the construction of an overhead transmission line, in addition to the (f) 2 considerations listed in subsection (e) of this section, the Commission shall: 3 (1) take final action on an application for a certificate of public convenience and necessity only after due consideration of: 4 5 (i) the need to meet existing and future demand for electric service; 6 [and] **PJM** 7 (II)ANY \mathbf{BY} **ALTERNATIVES** CONSIDERED 8 INTERCONNECTION, LLC; 9 (III) THE ANALYSIS OF ALTERNATIVES CONDUCTED BY THE APPLICANT UNDER SUBSECTION (B)(3)(IV) OF THIS SECTION; 10 11 (IV) ANY ALTERNATIVES SUBMITTED BY OTHER PARTIES TO THE 12 TRANSMISSION PROCEEDINGS; AND 13 [(ii)] **(V)** for construction related to a new overhead transmission 14 line, the alternative routes that the applicant considered, including the estimated capital 15 and operating costs of each alternative route and a statement of the reason why the alternative route was rejected; 16 17 require as an ongoing condition of the certificate of public convenience 18 and necessity that an applicant comply with: 19 (i) all relevant agreements with PJM Interconnection, L.L.C., or its 20 successors, related to the ongoing operation and maintenance of the overhead transmission 21line; and 22all obligations imposed by the North America Electric Reliability Council and the Federal Energy Regulatory Commission related to the ongoing operation 23and maintenance of the overhead transmission line; and 2425 (3) require the applicant to identify whether the overhead transmission line is proposed to be constructed on: 26 27 an existing brownfields site; (i) property that is subject to an existing easement; or 28(ii) 29 a site where a tower structure or components of a tower structure (iii) used to support an overhead transmission line exist. 30
- 31 **7–207.4.**

- 1 (A) IN THIS SECTION, "ADVANCED TRANSMISSION TECHNOLOGIES" HAS 2 THE MEANING STATED IN § 7–207 OF THIS SUBTITLE.
- 3 (B) ON OR BEFORE DECEMBER 1, 2025, AND EVERY 2 YEARS THEREAFTER, 4 EACH OWNER OR OPERATOR OF AN OVERHEAD TRANSMISSION LINE SHALL SUBMIT 5 TO THE COMMISSION A REPORT THAT:
- 6 (1) IDENTIFIES AREAS OF TRANSMISSION CONGESTION FOR THE 7 IMMEDIATELY PRECEDING 3 YEARS AND ANY REASONABLY FORESEEABLE 8 TRANSMISSION CONGESTION ISSUES FOR THE 5 YEARS IMMEDIATELY FOLLOWING 9 THE DATE OF THE REPORT;
- 10 (2) IDENTIFIES THE PROJECTED OR ACTUAL COST TO RATEPAYERS AS
 11 A RESULT OF PAST AND PROJECTED FUTURE TRANSMISSION CONGESTION;
- 12 (3) IDENTIFIES THE FEASIBILITY AND COST OF USING ALTERNATIVE 13 MEANS OF ADDRESSING TRANSMISSION CONGESTION, INCLUDING THE USE OF 14 ADVANCED TRANSMISSION TECHNOLOGIES;
- 15 (4) IDENTIFIES THE ECONOMIC, ENVIRONMENTAL, AND SOCIAL ISSUES POSED BY THE USE OF EACH ALTERNATIVE MEANS IDENTIFIED UNDER ITEM (3) OF THIS SUBSECTION; AND
- 18 (5) IF FEASIBLE, PROPOSES AN ADVANCED TRANSMISSION 19 TECHNOLOGY IMPLEMENTATION PLAN TO ADDRESS AREAS OF TRANSMISSION 20 CONGESTION IDENTIFIED UNDER ITEM (1) OF THIS SUBSECTION.
- 21 (C) AN OWNER OR OPERATOR OF AN OVERHEAD TRANSMISSION LINE MAY 22 USE ANY AVAILABLE DATA FROM PJM INTERCONNECTION, LLC, OR OTHER 23 SOURCES IN COMPLETING THE REPORT REQUIRED UNDER THIS SECTION.
- 24 (D) IF THE COMMISSION AUTHORIZES THE USE OF ADVANCED TRANSMISSION TECHNOLOGIES AS A RESULT OF INFORMATION RECEIVED IN A REPORT UNDER THIS SECTION, THE COMMISSION MAY AUTHORIZE REASONABLE COST RECOVERY FOR THE USE OF ADVANCED TRANSMISSION TECHNOLOGIES UNDER THIS SECTION.
- SECTION 2. AND BE IT FURTHER ENACTED, That this Act shall take effect 30 October 1, 2025.
