

115TH CONGRESS
1ST SESSION

S. RES. 207

Designating the week of July 9 through July 15, 2017 as “Sarcoma Awareness Week” and designating July 15, 2017 as “Leiomyosarcoma Awareness Day”.

IN THE SENATE OF THE UNITED STATES

JUNE 28, 2017

Ms. STABENOW submitted the following resolution; which was referred to the
Committee on the Judiciary

RESOLUTION

Designating the week of July 9 through July 15, 2017 as
“Sarcoma Awareness Week” and designating July 15,
2017 as “Leiomyosarcoma Awareness Day”.

Whereas a soft tissue sarcoma is a rare type of cancer, accounting for approximately 1 percent of all newly diagnosed cancers, that arises in the connective tissue of the body;

Whereas the National Institutes of Health designates sarcoma as a rare form of cancer, with sarcoma containing approximately 70 different subtypes;

Whereas sarcomas are largely resistant to current chemotherapy agents, immunotherapy agents, and radiation therapies, posing a formidable challenge for researchers and specialists;

Whereas sarcoma subtypes have largely not received benefit from immunotherapies due to the complexity of the DNA, genomes, and mutations associated with the many variations in the sarcoma subtype landscape;

Whereas leiomyosarcoma (referred to in this preamble as “LMS”) is a malignant, aggressive subtype of soft tissue sarcoma derived from smooth muscle cells typically of uterine, gastrointestinal or soft tissue origin, and can metastasize to the bone, spine, brain, and liver;

Whereas the National Institutes of Health classifies LMS as a rare disease, accounting for approximately 15 percent of all sarcomas, and LMS itself encompasses at least 4 different LMS subtypes;

Whereas LMS primarily affects adults without regard to gender;

Whereas research and clinical trials for LMS remain complicated and the prospects for long-term survival remain poor;

Whereas multidisciplinary care coordination teams, because of their expertise and experience, are critical to the health of sarcoma and LMS patients;

Whereas sarcoma and LMS research will allow medical professionals to improve the quality of care for affected patients, lead to better clinical outcomes, and promote longer survival for patients; and

Whereas increased education and awareness about sarcoma and LMS will contribute to the well-being of the communities of the United States: Now, therefore, be it

1 *Resolved*, That the Senate—

1 (1) designates the week of July 9 through July
2 15, 2017, as “Sarcoma Awareness Week”;

3 (2) designates July 15, 2017, as
4 “Leiomyosarcoma Awareness Day”;

5 (3) recognizes the challenges faced by sarcoma
6 and leiomyosarcoma patients; and

7 (4) commends the dedication of organizations,
8 volunteers, researchers, and caregivers across the
9 country working to improve the quality of life of sar-
10 coma and leiomyosarcoma patients and their fami-
11 lies.
