S. 1119

To provide technical assistance to improve infrastructure in foreign markets
for United States agricultural commodities.

IN THE SENATE OF THE UNITED STATES

MARCH 25, 2025

Mr. BANKS (for himself and Mr. FETTERMAN) introduced the following bill;
which was read twice and referred to the Committee on Agriculture, Nu-
trition, and Forestry

A BILL

To provide technical assistance to improve infrastructure in
foreign markets for United States agricultural commodities.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Fortifying Refrigera-
5 tion Infrastructure and Developing Global Exports Act of
6 2025” or the “FRIDGE Act of 2025”.

7 **SEC. 2. FINDINGS.**

8 Congress finds the following:

9 (1) One of the largest limiting factors to grow-
10 ing export markets for United States food and agri-

1 culture products is insufficient infrastructure capa-
 2 bilities.

3 (2) Current trade programs are focused on pro-
 4 moting specific commodities or products, all of which
 5 are reliant on a functioning supply chain.

6 (3) There is a need for dedicated resources to
 7 focus on supply chain enhancement in developing
 8 countries to enable market expansion and diver-
 9 sification.

10 (4) Each year, billions of tons of fresh and fro-
 11 zen food products and millions of dollars' worth of
 12 United States exports are lost due to poor cold chain
 13 systems in developing markets.

14 (5) Strengthening global infrastructure plays an
 15 important role in promoting trade, reducing food
 16 loss and waste, and improving nutrition.

17 **SEC. 3. TECHNICAL ASSISTANCE TO IMPROVE INFRA-**
 18 **STRUCTURE IN FOREIGN MARKETS FOR**
 19 **UNITED STATES AGRICULTURAL COMMOD-**
 20 **ITIES.**

21 Section 203(c) of the Agricultural Trade Act of 1978
 22 (7 U.S.C. 5623(c)) is amended by adding at the end the
 23 following:

10 of infrastructure in new and developing foreign
11 markets, including infrastructure relating to
12 cold chain capacity, port improvements, and
13 other developments, to ensure United States ag-
14 ricultural commodities are not damaged or lost
15 due to deficiencies of such infrastructure.
