A BILL

To amend the National and Community Service Act of 1990 to establish a Civilian Climate Corps to help communities respond to climate change and transition to a clean economy, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

1 **SECTION 1. SHORT TITLE.**

2 This Act may be cited as the “The Civilian Climate
3 Corps for Jobs and Justice Act”.

4 **SEC. 2. FINDINGS.**

5 Congress finds the following:

6 (1) The effects of climate change include ex-
7 treme heat, drought, intensified storms and hurri-
8 canes, rising sea level, ocean acidification, inten-
9 sifying wildfires, and other natural disasters.

10 (2) These natural disasters exert profound im-
11 pacts on the lives and livelihoods of all individuals,
12 but some communities, particularly low-income com-
13 munities and communities of color, are dispropor-
14 tionately exposed and vulnerable to climate impacts
15 and pollution.

16 (3) To stem the worst effects of climate change,
17 the global economy must completely decarbonize and
18 remain carbon negative thereafter, which requires a
19 domestic economy-wide transition to a clean and
20 sustainable economy within a rapid timeframe.

21 (4) Such a transition requires a massive labor
22 mobilization and the development of a diverse, inclu-
23 sive, and skilled workforce. Historically underserved
24 communities must equitably receive the resources
25 they need to effectively mitigate and adapt to cli-

1 mate change, and displaced or unemployed workers
2 require retraining and support.

3 (5) Millions of people face unemployment and
4 barriers to opportunity, especially in low-income
5 rural, urban, and tribal environments. These chal-
6 lenges have been exacerbated by the COVID–19 cri-
7 sis, which also disproportionately affected low-in-
8 come people and young people of color, who cur-
9 rently face unemployment at rates double the na-
10 tional average.

11 (6) An existing network of national, State, trib-
12 al, and local service and conservation corps can be
13 rapidly scaled and supplemented to mobilize labor,
14 provide job opportunities and career training, and
15 help establish the workforce necessary to accomplish
16 the transition to a clean and just economy.

17 (7) Corps positions provide hands-on work ex-
18 perience, income, and job training for unemployed
19 individuals in the United States, as well as leader-
20 ship skills, an opportunity for community service,
21 and an understanding of environmental stewardship.

22 (8) The Corporation for National and Commu-
23 nity Service has the ability to recruit, select, fund,
24 and oversee 1,500,000 members of service corps by

1 2025 to complete important projects across the en-
 2 tire country to help address the climate crisis.

3 (9) Unsatisfactory wages and working condi-
 4 tions, and employers' refusal to respect workers'
 5 rights to organize and collectively bargain, lead to
 6 labor disputes, which threaten to frustrate or delay
 7 the urgent mobilization necessary to address climate
 8 change. Such disputes are prevented or minimized
 9 when the law effectively protects the right of workers
 10 to receive fair compensation and benefits, to form or
 11 join unions, to collectively bargain over the terms
 12 and conditions of employment, and to engage in
 13 other concerted activities for mutual aid or protec-
 14 tion.

15 **SEC. 3. CIVILIAN CLIMATE CORPS PROGRAM.**

16 (a) IN GENERAL.—The National and Community
 17 Service Act of 1990 (42 U.S.C. 12501 et seq.) is amended
