1 *Be it enacted by the General Assembly of the State of Colorado:*

2 **SECTION 1. Legislative declaration.** (1) The general assembly
3 finds and declares that:

4 (a) Uncoordinated and unplanned growth, together with a lack of
5 common goals expressing the public's interest in the wise use of state
6 lands, poses a threat to economic resources and resiliency, the
7 environment and climate, affordable and decent housing, access to
8 adequate public facilities and services, and the health, safety, and high
9 quality of life enjoyed by Colorado residents;

10 (b) It is in the public interest that communities, local governments,
11 regional and state agencies, and both the public and the private sectors
12 take integrated and comprehensive actions to manage growth and
13 economic opportunity;

14 (c) It is in the public interest to ensure that the use of land, the
15 provision of adequate facilities and services, wise use of resources, and
16 the availability of housing for all occur in a manner that protects citizens,
17 communities, economic interests, businesses, and the environment from

- 1 preventable threats and hardships;
- 2 (d) Local governments, in partnership with regional and state
3 agencies, are key to providing support, knowledge, insight, and
4 encouragement to help communities thrive and to be sustainable, resilient,
5 and equitable;
- 6 (e) Laws, rules, and regulations addressing local master planning,
7 as well as regional and state strategic planning, have been developed at
8 different points in time and vary in their content, character, and intent;
- 9 (f) Some laws, rules, and regulations that address planning are
10 advisory, while others address requirements of statewide, regional, and
11 local significance;
- 12 (g) There are many state laws that address planning issues
13 incrementally and independently of other related issues, which leads to
14 planning that is piecemeal and often one-dimensional;
- 15 (h) Contemporary planning requires integrated approaches to
16 complex interrelated challenges through a more unified framework;
- 17 (i) Successfully and efficiently addressing 21st century planning
18 challenges require an integrated and comprehensive approach;
- 19 (j) A unified planning framework that recognizes
20 interrelationships among contemporary topics and issues is needed to
21 achieve truly comprehensive planning;
- 22 (k) A unified planning framework will simplify the planning
23 process by addressing challenges that are interdependent and mutually
24 reinforcing;
- 25 (l) A unified planning framework makes planning more accessible
26 and easier to understand for community members, decision-makers, and
27 staff and for both the public and private sectors;

1 (m) Where there are common borders and related regional issues
2 among jurisdictions, regional roundtables provide an opportunity to
3 provide consistency and compatibility among planning policies and
4 implementation;

5 (n) A unified planning framework allows for local customization
6 and tailoring among Colorado's distinct regional and local places;

7 (o) A common planning framework provides a mechanism for
8 ensuring that interrelated topics and issues can be addressed in distinct
9 regional and local contexts; and

10 (p) Resource lands, rural lands, urban lands, and resort
11 communities are each distinct and have their own challenges and
12 opportunities that require customized planning approaches.
