Section 1. Section 53-6-101, MCA, is amended to read:

"53-6-101. Montana medicaid program -- authorization of services. (1) There is a Montana medicaid program established for the purpose of providing necessary medical services to eligible persons who have need for medical assistance. The Montana medicaid program is a joint federal-state program administered under this chapter and in accordance with Title XIX of the Social Security Act, 42 U.S.C. 1396, et seq. The department shall administer the Montana medicaid program.

(2) The department and the legislature shall consider the following funding principles when considering changes in medicaid policy that either increase or reduce services:

(a) protecting those persons who are most vulnerable and most in need, as defined by a combination of economic, social, and medical circumstances;

(b) giving preference to the elimination or restoration of an entire medicaid program or service, rather than sacrifice or augment the quality of care for several programs or services through dilution of funding; and

(c) giving priority to services that employ the science of prevention to reduce disability and illness, services that treat life-threatening conditions, and services that support independent or assisted living, including pain management, to reduce the need for acute inpatient or residential care.

(3) Medical assistance provided by the Montana medicaid program includes the following services:

- 10 (i) targeted case management services, as authorized in 42 U.S.C. 1396n(g), for high-risk pregnant

6 management services for the mentally ill;

7 (o) services of psychologists licensed under Title 37, chapter 17;

8 (p) inpatient psychiatric services for persons under 21 years of age, as provided in 42 U.S.C. 1396d(h),
9 in a residential treatment facility, as defined in 50-5-101, that is licensed in accordance with 50-5-201; and

10 (q) any additional medical service or aid allowable under or provided by the federal Social Security Act.

11 (5) Services for persons qualifying for medicaid under the medically needy category of assistance, as
12 described in 53-6-131, may be more limited in amount, scope, and duration than services provided to others
13 qualifying for assistance under the Montana medicaid program. The department is not required to provide all of
14 the services listed in subsections (3) and (4) to persons qualifying for medicaid under the medically needy
15 category of assistance.

16 (6) In accordance with federal law or waivers of federal law that are granted by the secretary of the U.S.
17 department of health and human services, the department may implement limited medicaid benefits, to be known
18 as basic medicaid, for adult recipients who are eligible because they are receiving financial assistance, as defined
19 in 53-4-201, as the specified caretaker relative of a dependent child under the FAIM project and for all adult
20 recipients of medical assistance only who are covered under a group related to a program providing financial
21 assistance, as defined in 53-4-201. Basic medicaid benefits consist of all mandatory services listed in subsection
22 (3) but may include those optional services listed in subsections (4)(a) through (4)(q) that the department in its
23 discretion specifies by rule. The department, in exercising its discretion, may consider the amount of funds
24 appropriated by the legislature, whether approval has been received, as provided in 53-1-612, and whether the
25 provision of a particular service is commonly covered by private health insurance plans. However, a recipient who
26 is pregnant, meets the criteria for disability provided in Title II of the Social Security Act, 42 U.S.C. 416, et seq.,
27 or is less than 21 years of age is entitled to full medicaid coverage.

28 (7) The department may implement, as provided for in Title XIX of the Social Security Act, 42 U.S.C.
29 1396, et seq., as may be amended, a program under medicaid for payment of medicare premiums, deductibles,
30 and coinsurance for persons not otherwise eligible for medicaid.

(8) (a) The department may set rates for medical and other services provided to recipients of medicaid and may enter into contracts for delivery of services to individual recipients or groups of recipients.

(b) The department shall strive to close gaps in services provided to individuals suffering from mental illness and co-occurring disorders by doing the following:

(i) simplifying administrative rules, payment methods, and contracting processes for providing services to individuals of different ages, diagnoses, and treatments. Any adjustments to payments must be cost-neutral for the biennium beginning July 1, 2017.

(ii) publishing a report on an annual basis that describes the process that a mental health center or chemical dependency facility, as those terms are defined in 50-5-101, must utilize in order to receive payment from Montana medicaid for services provided to individuals of different ages, diagnoses, and treatments.

(9) The services provided under this part may be only those that are medically necessary and that are the most efficient and cost-effective.

(10) The amount, scope, and duration of services provided under this part must be determined by the department in accordance with Title XIX of the Social Security Act, 42 U.S.C. 1396, et seq., as may be amended.

(11) Services, procedures, and items of an experimental or cosmetic nature may not be provided.

(12) If available funds are not sufficient to provide medical assistance for all eligible persons, the department may set priorities to limit, reduce, or otherwise curtail the amount, scope, or duration of the medical services made available under the Montana medicaid program after taking into consideration the funding principles set forth in subsection (2)."
