(3) (i) Before the Authority adopts an increase in tolls, fees, or other charges on any part of a fixed toll transportation facilities project or adopts an increase in mileage rate ranges, pricing periods, toll zones, fees, or other charges on a variably priced toll transportation facilities project, the Authority shall provide an opportunity for public review and comment on the proposed increase at one or more meetings held at a time and place of convenience to the public in each county in which the increase is proposed to be implemented.

(ii) At least 10 working days before the start of the first meeting under subparagraph (i) of this paragraph, the Authority shall provide to the public on the Authority's official website the proposed increase in tolls, fees, mileage rate ranges, pricing periods, toll zones, or other charges and information and studies used in its analysis to justify the proposed increase.

(iii) For a period of at least 10 working days after the last scheduled meeting for public review and comment under subparagraph (i) of this paragraph, the Authority shall provide the public with an opportunity to submit additional written comments on the proposal.

(iv) Within 10 days after the close of the written comment period under subparagraph (iii) of this paragraph, the Authority shall provide to the public on its official website and to the members of the Authority a summary and analysis of the comments received from the public on the proposal.

(4) Before the Authority votes on any proposal to increase tolls, fees, or other charges on any part of a fixed toll transportation facilities project or votes on an increase in mileage rate ranges, pricing periods, toll zones, fees, or other charges on any part of a variably priced toll transportation facilities project, the Authority shall:

17 (6) (i) If the Authority determines that it must increase tolls, fees,
